DATA PRIVACY AND SECURITY

4. A.B. Data has numerous control systems and procedures in place, that it believes meet or exceed relevant industry standards, to securely handle class member data.

5. A.B. Data accepts responsibility for the security of class member information and claimant data; accurate calculation of claims pursuant to a Court-approved plan of allocation, subject to the guidance of the parties; and accurate distribution of funds pursuant to relevant Court Orders. All case data provided to A.B. Data by the parties and/or Settlement Class Members will be used solely for the purpose of effecting notice and claims administration. A.B. Data will not use any Settlement Class Member information for any other purpose, specifically the information will not be used, disseminated, or disclosed by or to any other person for any other purpose.

6. A.B. Data will continue to host and maintain the case data until otherwise instructed in writing by the parties to delete, archive or return such data. When a customer requests that A.B. Data delete or destroy all data, A.B. Data agrees to delete or destroy all such data; provided, however, that A.B. Data may retain data as required by applicable law, rule or regulation, and to the extent such copies are electronically stored in accordance with A.B. Data's record retention or back-up policies or procedures (including those regarding electronic communications) then in effect.

7. A.B. Data maintains adequate insurance in the case of errors, which includes: (a) professional liability errors and omissions insurance coverage; (b) a fidelity bond for employee dishonesty losses (plus additional computer fraud and wire transfer communication fraud coverages); and (c) network and information security liability coverage.

PROPOSED NOTICE PLAN

8. A.B. Data was selected to serve as Notice and Claims Administrator for the additional proposed Settlements with the TPP Class, subject to the approval of the Court.

9. The proposed plan for providing notice of the Settlements ("Notice Plan") uses customary procedures that have been widely adopted in pharmaceutical class actions to reach the greatest practicable number of Settlement Class Members. This Notice Plan is the same notice plan

used to provide notice to the TPP class in the settlements with the Settling Distributors. Given our experience in notifying TPPs in pharmaceutical class actions, we expect the individual direct notice efforts detailed below, supplemented by paid and earned media, to successfully reach most Settlement Class Members is the best notice practicable under the circumstances of this case.

DIRECT NOTICE

10. A.B. Data maintains and annually updates a proprietary database of approximately 43,000 entities that include: (i) insurance companies; (ii) health maintenance organizations; (iii) self-insured entities such as large corporations, labor unions, and employee benefit and pension plans; and (iii) certain record keepers and other entities that represent TPPs, such as pharmacy benefit managers and third-party administrators (the “TPP Database”). This TPP Database is regularly used by A.B. Data to successfully notify Settlement Class Members in pharmaceutical class actions like this one.

11. The Postcard Notice (approved by the Court) will be sent via First-Class Mail to the entire TPP Database. Prior to mailing, A.B. Data will standardize and update all mailing addresses through the United States Postal Service (“USPS”) National Change of Address (“NCOA”) database. All Postcard Notices that are returned as undeliverable with forwarding addresses provided by USPS will be processed, updated in a case-specific database, and re-mailed. For Postcard Notices returned without any forwarding addresses, A.B. Data will attempt to obtain updated addresses for the addressees concerned using proprietary subscription databases and, in instances where updated addresses are found, re-mail the applicable Postcard Notices.

12. A.B. Data will also send notice by email (“Email Notices”) to approximately 1,500 entities in its TPP Database with available, valid email addresses. The Email Notices will include a link that allows recipients to visit the Settlement Website for additional information.

SUPPLEMENTAL PAID MEDIA

13. The direct notice described above will be supplemented through paid media in the form of customized digital banner ads. The banner ads will run for 30 days on selected industry-related websites that A.B. Data regularly utilizes to successfully notify Settlement Class Members in pharmaceutical class actions, and the ads will include an embedded link to the Settlement Website. The websites include:

(a) ThinkAdvisor.com/life-health - This website is affiliated with the former publication *National Underwriter Life & Health*. It is uniquely positioned to provide agents and brokers with timely, insightful information, as they navigate the specialty insurance markets and sort through critical industry developments.

(b) BenefitNews.com - This website is affiliated with the publication *Employee Benefit News*. It serves human resource management personnel that specialize in determining and implementing benefits for employees, including health insurance.

(c) SHRM.org - This website is the official website of the Society of Human Resource Management. Visitors to this website include human resource managers that specialize in a variety of related disciplines such as benefits, health insurance, compliance, and many others. It also reaches the human resource management within large companies that offer private health insurance policies to their employees.

EARNED MEDIA

14. To provide additional notice and exposure, A.B. Data will distribute a news release via PR Newswire's US1. The news release will reach traditional media outlets (television, radio, newspapers, magazines), news websites, and journalists nationwide, and it will also include the address of the Settlement Website and the toll-free telephone number. Although there is no guarantee that any news stories will result, the news release will serve a valuable role by providing additional notice exposures beyond what will be provided by the paid media.

15. A.B. Data will also share information about the case with its followers on X.

SETTLEMENT WEBSITE

16. A.B. Data will update and continue to maintain the Settlement Website, www.TPPopiodsettlement.com, where Settlement Class Members can easily obtain information about the Action and the additional Settlements. The Settlement Website will contain relevant documents and information, including the Long-Form Notice, the Complaint, the Settlement Agreements, Claim Form, and other related documents. In addition, the Settlement Website will include answers to frequently asked questions, instructions for how Settlement Class Members may opt out (request exclusion), object, or submit a claim, contact information for the Notice and Claims Administrator, and how to obtain other case-related information. The Settlement Website will also contain a claims-filing portal for those Settlement Class Members who wish to submit their Claim online. The Settlement Website address will be prominently displayed in all notice documents.

TOLL-FREE TELEPHONE NUMBER AND EMAIL ADDRESS

17. A.B. Data will update and continue to maintain the toll-free telephone number with interactive voice response (“IVR”) technology and dedicated e-mail address to address questions and provide information about the additional Settlements. The toll-free telephone number and email address will be prominently displayed in the Notices and Claim Form and the Settlement website. The automated telephone system will be available 24 hours per day, seven days per week.

PLAIN LANGUAGE NOTICE DESIGN

18. The Notices are designed to be “noticed.” Reviewed, and – by presenting the information in plain language – to be understood by Settlement Class Members. The design of the Notices follows the principles embodied in the Federal Judicial Center’s (“FJC”) illustrative model notices posted at www.fjc.gov. Many courts have approved notices that were written and designed in a similar fashion. The Notices contain substantial, albeit easy-to-read, summaries of all key information about the Settlements and Settlement Class Members’ rights, including their ability to

opt out, object, and file a claim and the deadlines to do so. Consistent with our normal practice, all notice documents will undergo a final edit for grammatical errors and accuracy prior to actual mailing and publication.

CLAIMS ADMINISTRATION

19. A.B. Data will also provide claims administration services, including processing each submitted Claim Form, determining each Settlement Class Member's distribution amount, and preparing and sending distribution checks to eligible Settlement Class Members. A.B. Data may also provide additional services upon request, including setting up, administering, and preparing a tax return for the Qualified Settlement Fund ("QSF").

20. Settlement Class Members who wish to be potentially eligible to receive a payment from the Settlement Fund will be required to complete and submit a properly executed Claim Form along with any required supporting documents either by mail or online through the Settlement Website such that it is postmarked (if mailed) or received no later than the claims-submission deadline established by the Court. Notwithstanding the foregoing, TPPs that previously submitted a valid Claim Form in connection with the Settling Distributors settlement or in the McKinsey TPP settlement may rely on their prior claims submissions.

21. A.B. Data will review each claim upon receipt to verify that all required information was provided. Information provided with each claim will be reviewed for accuracy. A.B. Data will process each Claim in accordance with the Court-approved Settlement Agreements, Plan of Allocation, and/or relevant Court orders.

22. If a claim is determined to be defective, A.B. Data will send a deficiency notification to the claimant, via letter or email, that describes why the claim is deficient and including, where applicable, what is necessary to cure the deficiency. The deficiency notification will also advise claimants how much time they have to submit the appropriate information and/or documentary

evidence to complete/cure their claim. If a claimant does not cure the deficiency in their claim, the claim will be recommended for rejection (in whole or in part). The deficiency notification will also advise claimants of their right to contest A.B. Data's administrative determination with respect to their claim.

23. After the claims (and responses to deficiency notifications) have been fully processed, quality assurance reviews performed, and final administrative determinations have been made as to which claims are valid, A.B. Data will present its administrative report on the claims received for the Settlements to the Court, along with a proposed distribution plan. Thereafter, upon Court approval, A.B. Data will distribute the net Settlement proceeds to eligible Settlement Class Members.

24. Distributions from the net Settlement proceeds will be sent to eligible Settlement Class Members via check with a specified period for each claimant to cash their payment (typically 90 or 120 days). For any checks that are not cashed, A.B. Data will conduct an outreach campaign to encourage claimants to cash their checks and provide claimants with reissued checks where applicable. The procedure described above is the standard claims administration process for pharmaceutical class action settlements.

PROJECTED CLAIMS RATE & ESTIMATED CASH PAYMENT AMOUNT

25. A.B. Data has experience with over a dozen class actions of varying sizes where TPPs were involved, and A.B. Data consistently receives between 1,500 and 2,500 claims. Due to overlap and consolidation in the insurance industry, these claims often cover many more underlying beneficiaries/lives. Our experience also provides that the valid claims typically receive sizable payments of \$10,000 or greater. Thus, in this Action, with \$180 million in total Settlement Funds, available across the Allergan, Janssen, Teva, and Pharmacy Settlements, A.B. Data estimates

approximately 2,000 valid claims representing over 100,000 plans will be submitted, and those claims will receive significant and sizable distribution payments.

ESTIMATED ADMINISTRATION COSTS

26. Based on its experience administering large-scale class actions in the healthcare space, A.B. Data estimates that providing notice to Settlement Class Members, claims processing, and distribution of the net Settlement proceeds to eligible Settlement Class Members will generate professional services fees and expenses of approximately \$200,000 to \$300,000. These costs will be paid from the Settlement Funds in accordance with the Settlement Agreements and Court orders, which is approximately 0.1% of the proposed Settlement Amounts and consistent with our experience in similar matters.

27. These amounts are estimates, and the true administration costs could change based on the actual circumstances and volumes. For example, if the number of Postcard Notices or Email Notices sent are substantially greater (or smaller) than A.B. Data's estimate, the media notice costs increase, or if the number of claims received is substantially greater (or smaller) than the estimate. In addition, administration costs could also be impacted by any out-of-scope work encountered during the course of the administration. A.B. Data will always strive to keep costs down whenever possible.

I declare under penalty of perjury that the foregoing is true and correct.

Executed in Palm Beach Gardens, Florida, on this 3rd day of June, 2026.

All Digital — From Notice to Distribution

A.B. Data is uniquely positioned to design, implement, and maintain notice and settlement administration programs using an innovative, "all-digital" approach that replaces the more traditional and less efficient methods of administration, such as newspaper ads, mailed notices, and paper checks. Many of our recent proposed notice plans and claim programs utilize the latest technologies such as microtargeted digital ads for notice, streamlined online claims, and distributing settlement funds electronically using a digital paywall. These methods provide significant cost savings, are consistent with the amendments to Rule 23 that are now in effect, and importantly provide much-needed alignment of class action notice and administration with current consumer behaviors.

The pre-settlement consultation is a collaborative session designed to help A.B. Data clients prepare a stronger case. Our support teams simplify the task of sorting through a maze of documents during investigation and discovery, streamlining the process and preserving fund assets. From there, we assist with fully interactive media packages for court presentations and settlement negotiations. A.B. Data works closely with our clients, offering expert testimony on documents, processing, class and notice manageability, and proposed plans of allocation.

Media Services

A.B. Data continues to earn our reputation as the early innovator in integrating advanced micro-targeting techniques, including contextual targeting, behavioral targeting, and predictive modeling. Utilizing monitoring software, associates watch multiple social media channels simultaneously, allowing for instantaneous routing of inquiries and interaction with claimants. Detailed and concise analytical reports outlining Contact Center activities are always provided.

Our Contact Center and case websites are capable of handling millions of class member engagements, as recently displayed in a campaign which garnered over 1.2 million website visits in two months and had more than 72,500 Facebook engagements.
